PROFESSIONAL SUMMARY

Senior Project and Product Manager with 6+ years in technology delivery, 5+ of them as a PM. At GDP Labs since 2024, managing AI consulting engagements in computer vision, conversational AI and retail execution for BCA, Coca-Cola Europacific Partners and Pertamina across Indonesia, Australia, New Zealand, Singapore and Papua New Guinea. Previously ran custom software projects at Lumoshive and strategic IT projects at Astra Financial. Background in business analysis and UI/UX design.

KEY ACHIEVEMENTS

700+ CCTV points monitored in Pertamina's nationwide computer vision deployment (client rating 5/5)	1,000+ retail outlets covered by CCEP Indonesia computer vision retail execution
4.5/5 average CSAT across 5+ concurrent engagements in 4 countries	100+ stakeholders and 4 vendors coordinated across AI, data, engineering and client teams

WORK EXPERIENCE

Senior Product Manager & Scrum Master, GDP Labs (Djarum Group)

Jun 2024 - Present

GLAIR Division | Jakarta, Indonesia

- Lead cross-functional teams of **UI/UX designers and engineers**, and run daily communication with clients, vendors and executive stakeholders across all engagements.
- Manage 5+ concurrent AI and technology consulting engagements for BCA Group, Coca-Cola Europacific Partners (CCEP), Pertamina and Djarum Group, from discovery and requirements to deployment and post-go-live support.
- Pertamina**: delivered computer vision that monitors vehicle queues and working-area compliance on **700+ CCTV points** across the national fuel station network. Client rating: 5/5.
- CCEP Australia and New Zealand**: manage the SaM program across four vendors (CoreFlex, Quinox, CapGemini, Vxceed).
- CCEP Indonesia**: computer vision for planogram compliance, share of shelf and on-shelf availability across **1,000+ retail outlets**. Also led the Philippines proposal and cover PNG as backup PM.
- BCA**: deliver Halo (AI contact center) and Astari (Dialogflow CX chatbot), from requirements and NLU design through integration, QA, hypercare and SLA-based maintenance.
- FMCG**: AI retail execution for Savoria, Wings, TNS, Sasa and Barefood (SKU detection, POSM, fraud detection, monthly analytics), plus a sensor-integrated production monitoring system for process tracking and weighing.
- Run delivery governance with PMBOK practices (scope baseline, risk register, change control, cost-benefit analysis, RAG reporting) and Scrum for sprints and UAT. Conduct on-site field assessments to validate systems in real operating conditions.

IT Project Manager & Scrum Master, Astra Financial

May 2023 - Jun 2024

Jakarta, Indonesia

- Acted as internal IT consultant to **10+ business units across 7 industries**: technology assessments, project priorities and improvement areas.
- Managed strategic IT projects through the full lifecycle using PMBOK planning, cost-benefit analysis and risk management.
- Agreed next steps with business units after gap reviews. Ran Scrum ceremonies, governance reporting and stakeholder updates.

Project Manager, Lumoshive

Jun 2021 - May 2023

Jakarta, Indonesia

- Managed **8+ concurrent client projects** (Android, iOS, web, custom CMS): scoping, cost analysis, resource and sprint planning, QA and client communication. Part of the core management team shaping product and growth direction.
- **Lumoshive ERP**: sole PM for a company-wide ERP (HR, projects, finance, clients). Delivered in 4 months with phased rollout to **50+ users**.
- **Royal Medica SFA**: CMS, call scheduler, route mapping, incentive calculation and mobile clock-in/out for field sales teams, with **300+ daily active users**.
- **Agree Fisheries (via Telkom Indonesia)**: government fisheries digitization Android app and national analytics dashboard, delivered in 6 months across 3 fishing regions.
- **Mamaroz**: IoT-integrated production management app covering weight tracking, bill of materials, demand forecasting and inventory.

UI/UX Designer, Telkom Indonesia

Sep 2020 - Feb 2021

Jakarta, Indonesia

- Researched, prototyped and designed applications, ran user interviews and usability tests, and managed several projects.

Business Analyst, PT Bank Central Asia Tbk

Feb 2020 - Jul 2020

Jakarta, Indonesia

- Embedded in the central team at Indonesia's largest private bank: business analysis, documentation and process improvement on digital and operational initiatives, using Agile/Scrum.

EDUCATION

Universitas Bina Nusantara (BINUS), Bachelor's Degree, Management Information Systems

Sep 2017 - Mar 2021

- Capstone: led product vision and delivery of Bimatch, a university social mobile platform (5-month build).
